

# Availability of practices for comments by all employees

The application allows you to set up two modes of commenting on practices by all employees:

- At the time of sending the practice for approval;
- At the time of approval of the practice.

A screenshot of a web application interface for setting commenting availability. The title is 'Availability of practices for comments by all employees'. Below the title is a dropdown menu with three options: 'After approving' (selected), 'After submitting for approval', and 'After approving' (highlighted in blue). The dropdown is currently open, showing the second and third options.

When making changes, do not forget to click on "Save", otherwise the changes will not be saved.

A blue, rounded rectangular button with the word 'SAVE' in white capital letters.
