Moderator application menu

The moderator menu is available only to the application moderator and the administrators. The moderator application menu contains the following elements:

 - [Programs](). The section is designed for the creation and control of educational programs implementation. For more details, see the "Programs" section.

 - [Lessons](). The section is intended for creating lessons. For more details, see the "Lessons" section.

 - [Assignments](). In this section, assignments for training and testing are created. For more details, see the "Assignments" section.

 - [180/360 Evaluation](). This element allows for the organization of evaluations. For more details, see the "180/360 Evaluation" section.

 - [Reports]() on employees, tests, courses. For more details, see the "Reporting" section.

 - [Competency Management](#). Competencies, scales, and profiles are defined here.

 - [Individual Development Plan](#). Settings for individual development plans. For more details, see the "Individual Development Plan" section.

 - [Application Settings](#). For more details, see the "Application Settings" section.
