

# Archiving course/test assignments

To transfer to the archive, you

desired destination or template and transfer to

the archive using the element

To view archived assignments, click on the item

and back

The screenshot shows the Brusmika.LMS interface. The top navigation bar is blue and contains the logo "Brusmika.LMS My university", a search bar, and several menu items: COURSES-PROGRAMS, TESTS, EVENTS, INSTRUCTIONS, and EXIT. A left sidebar contains various user-related options like Feed, Profile, My Rating, My Tests, My Courses, My Assessments (with a red notification badge), My Reviews (with a red notification badge), My Certificates, My Competencies, My Events, My Programs, and Individual Development Plan. The main content area is titled "ASSIGNMENTS" and features a toggle switch for "Archive" (currently off). Below this is a table with columns for "Name", "Start Date, End", and "Action". The table contains one row with the assignment "My first assignment 1" and a date range of "2025-01-22 : 2025-01-30". The "Action" column for this row contains icons for restore and delete. A "Moderator Menu" is visible in the top right of the main content area.

The following actions are available for archived assignments: Restore from archive and Delete. When you select the corresponding assignment and click the "Restore from archive" button, the assignment will be returned from the archive to the main assignments section.

Revision #1
