Adding a coordination route

You can add coordinators and approvers to any category.
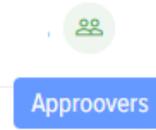

Open Settings - Categories and click on the element "Approvers"

For parallel coordination coordinators are added to the list of coordinators with a plus sign on the right.
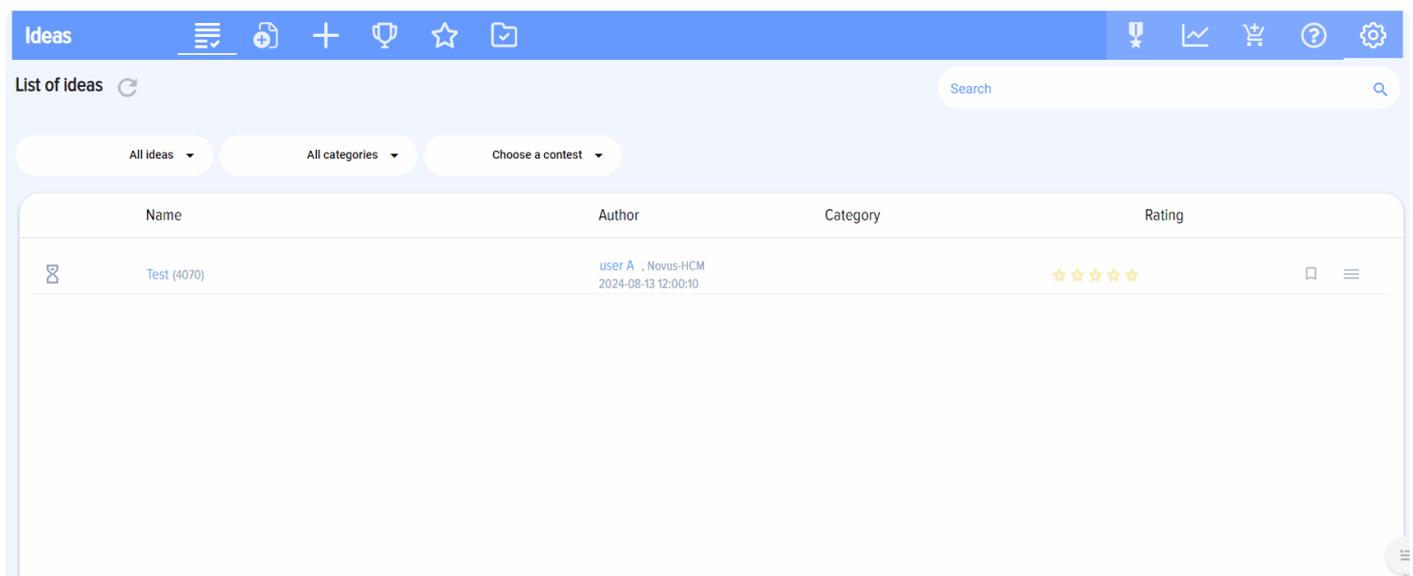

For sequential coordination coordinators are added to the sequential list with a plus sign under the word "Coordinators".
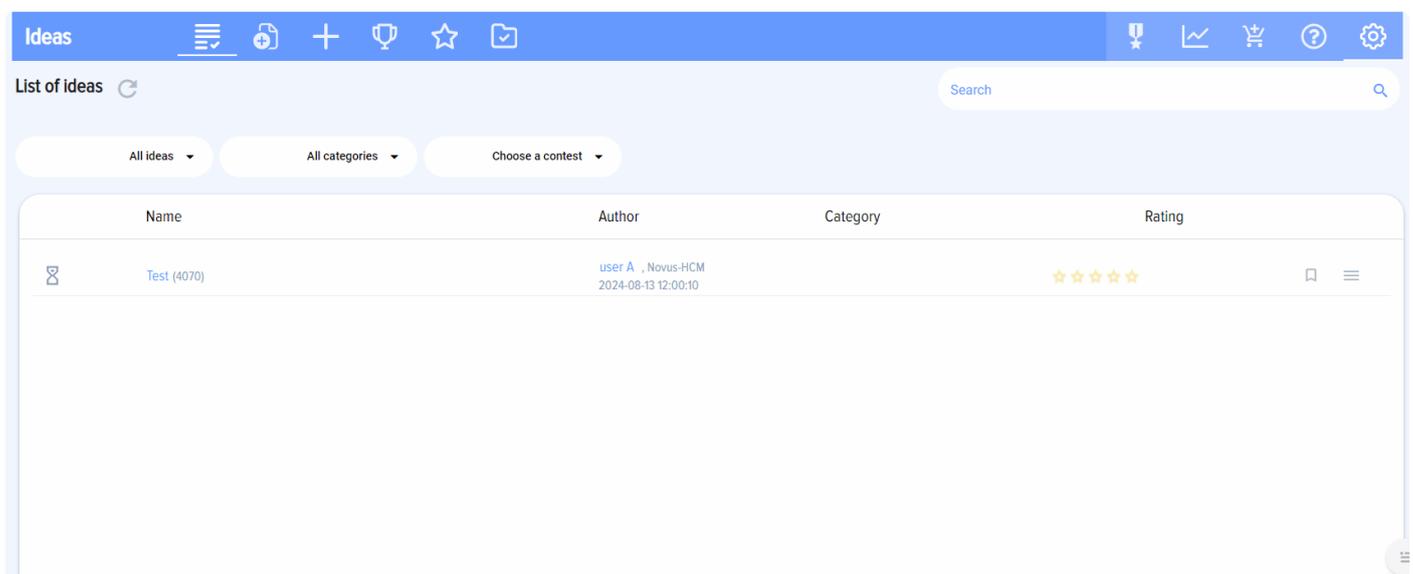

It is possible to implement a combined coordination route including parallel and sequential coordination.

When adding an idea, if an employee selects "My Cat 3" category, he will be prompted to automatically add the employees selected here.
