Roles in the app

The application contains the following roles:

- **User** - can add ideas as an idea author. Coordinate and approve ideas if chosen by the idea author as an coordinator and/or approver respectively.
- **Portal Administrator** - has access to application settings, appoints the Application Moderator, can edit and delete any ideas.
- **Application moderator** - appointed by the portal administrator. Can delete any ideas, correct them, transfer them to the archive. Performs application settings.
- **Coordinator** - a user appointed by the author of the idea, coordinates the idea. There may be several approvers. The idea is considered coordinated when coordinated by each participant in the process. If a user has coordinated the idea, a green check mark is placed next to his name in the idea card.
- **Approver** - a user assigned by the idea author, approves the idea and also assigns tasks for the idea.
