

Access to archive

In Settings - Other you can determine who should have access to the lesson archive - only moderators or all users.

A screenshot of a settings interface. On the left, a light blue sidebar contains the text 'Access to archive'. To the right, a dropdown menu is open, showing three options: 'To moderators only' (the current selection, highlighted in light blue), 'To moderators only' (in blue text), and 'To all' (in black text).
