

Access to archive

In Settings - Other you can determine who should have access to the lesson archive - only moderators or all users.

The image shows a settings interface for 'Access to archive'. On the left, the text 'Access to archive' is displayed. To its right is a dropdown menu. The dropdown is currently open, showing three options: 'To moderators only' (which is highlighted in blue), 'To moderators only' (in a lighter blue), and 'To all' (in white). The top option in the dropdown has a small upward-pointing triangle on its right side.

Revision #1
