

Lesson commenting settings

The application allows you to set up two modes of commenting on lessons by all employees.:

- At the time of sending the lesson for approval;
- At the time of lesson approval.

The screenshot shows a settings panel with the title "Availability for comments by all employees". To the right of the title is a dropdown menu. The dropdown is currently open, showing three options: "After approving" (the selected option, highlighted in light blue), "After submitting for approval", and "After approving" (highlighted in a darker blue). The dropdown menu has a small upward-pointing triangle on the right side of the top option.

When making changes, do not forget to click "Save", otherwise the changes made will not be saved.
